*Premium Series Long Elegant Panel with Optional  
Brilliance<sup>®</sup> Series Marquise Window Design.*

# Creating doors that move you

## A HISTORY OF CLOPAY®

A door that moves up and down isn't amazing. A door that moves you is another matter altogether.

That's why for the last 50 years Clopay has become the leader in creating garage doors that are not only an

integral part of your home's style, but are durable and reliable too. Clopay has established its heritage of quality, innovation and service in the garage door business since the 1960's and today we operate four manufacturing facilities and 45 distribution centers nationwide and in Canada. Our distributor network is unmatched in the industry as is our reputation for developing new ideas in construction materials, energy efficiency, safety features and design trends that exceed expectations.

With garage doors accounting for 30 percent or more of a home's façade, homeowners are increasingly looking for ways to enhance their home's curb appeal. So who better to turn to than America's favorite garage door manufacturer – Clopay. "People committed to customers and the industry" is the cornerstone of the Clopay mission and the reason why Clopay consistently ranks as America's favorite.

Begin your quest for the perfect garage door by taking our lifestyle quiz and then turn the pages and let your imagination take over. Be bold, be historically accurate, but most importantly, be inspired.

America's Favorite Garage Doors®

# New at Clopay

## The Gallery® Collection 3-Layer Construction

We took the popular Gallery® Collection and added a layer of bonded insulation and steel to make it both beautiful and durable inside and out. Available with 1-3/8" or 2" thick polystyrene insulation, all Gallery 3-layer doors have a thermal break for improved energy efficiency. Long and short panels with a deep vertical groove, multiple window options and decorative hardware are designed to complement any home.

See page 11 for more details.

## The Reserve® Collection Limited Edition Series

Distinguish your home with Clopay's Reserve® Collection Limited Edition Series, a line of eight wood door styles based on the most inspired (and requested) Custom Reserve designs. See page 7 for more details.

## New Coachman® Collection Features

- Coachman® doors and overlays can now be painted darker colors.
- Clip-in window grilles allow for easy replacement and removal.
- Optional beveled-look windows add an upscale look to your door.

See page 8 for more details.

Coachman® Collection Design 22 with Arch3 Window Design. Standard Spade Handles and Step Plate, Optional Spade Strap Hinges. The overlays have been painted by the consumer to match the home's exterior.

Coachman® Collection Series 1, Design 13 with Arch3 Window Design.  
Optional Fleur de Lis Handles and Step Plates.

# Lifestyle Quiz

***Before deciding what door is right for your house and lifestyle, answer these questions. Then let your imagination take over.***

***Is your garage attached? Does it double as storage or workspace? Is there living space above your garage?***

R-value (thermal efficiency) becomes increasingly important depending on how you use your garage. If you've answered yes to any of these questions, choose an insulated steel door which helps provide climate control and also reduces noise.

We suggest our Coachman® Collection, Premium Series (3-layer insulated construction) and Value Plus Series (2-layer insulated construction). See insulation options for all of our steel doors in the following pages.

If these questions don't match up with your home or garage use, our non-insulated steel Value Series should be considered.

## Do you have kids? Does your driveway see a lot of activity?

We suggest a heavy-duty door like our 2" thick Premium Series, Reserve® Collection wood doors

or our Coachman® Collection, especially if your garage is a high-traffic area. Remember, your doors should add beauty and grace to your home—not the stress of worrying about what kids or constant use will do to it.

## How important is appearance?

If you want a door that's functional and looks good, choose a steel door with flush panels for contemporary homes or raised panels for traditional homes. Different panel lengths and styles are also available, with long panels ideally suited for ground-hugging ranch homes. Window options can also enhance the overall look by mirroring your home's architecture.

If you want a unique and upscale look or want to maintain historical accuracy, our wood Reserve®, Classic™ Line of Wood, Coachman®, Gallery® or Avante Collections let you make a truly unique statement. These collections offer a wide range of door and window styles to complement your home.

Most steel doors come in up to six factory finish colors or can be painted with a high-quality exterior latex paint to match your home. Wood doors can be painted or stained.

## What's your budget?

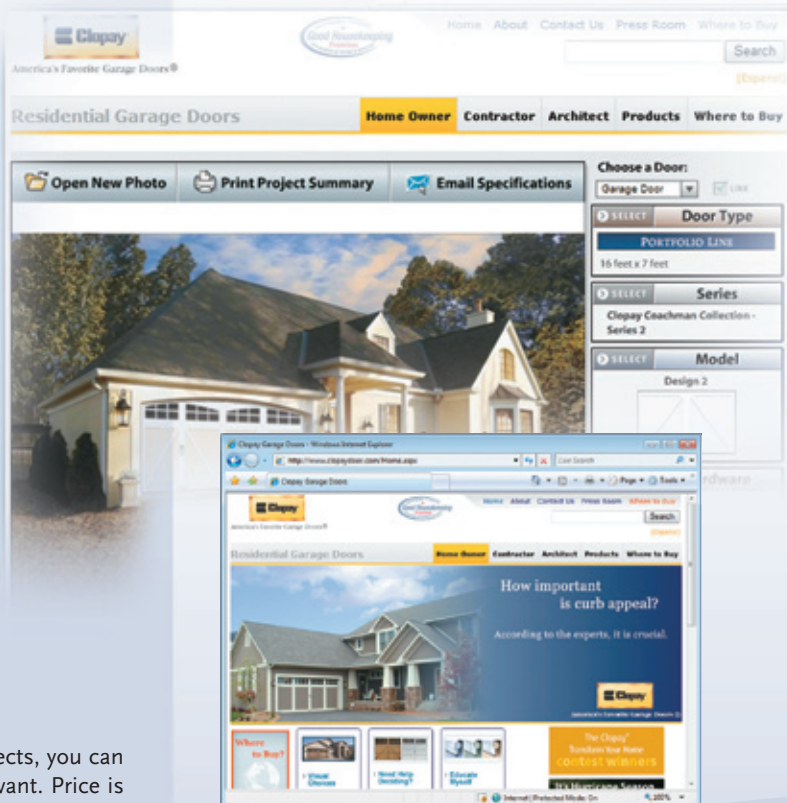

Like most home improvement projects, you can spend as much or as little as you want. Price is determined by size (i.e. single or double doors), material (wood, steel or aluminum), insulation and window options. As with most home projects, installation is usually quoted separately, so be sure to discuss these and other options with an Authorized Clopay Distributor.

## Other considerations

For coastal or high wind areas, check building codes first. You may need a Clopay WINDCODE® door. For garages with low ceilings, we offer low headroom track options. And for large openings to accommodate RVs, etc., relax. We can go as high as 12' or as wide as 20' with extended size doors.

# Clopaydoor.com

Our website is your one-stop resource for Clopay product specs, installation, maintenance and safety tips, and, of course, design ideas and inspiration. Be sure to check out our Garage Door Imagination System, a unique tool that lets you play with various combinations of door styles, colors, and windows. Then put it on a façade similar to your own home to see which

one you like the best. Not sure where to begin? View our "Showcase of Homes" or the "Before and After" inspirations to see how others have transformed their home by simply transforming their garage. Armed with ideas, you are now ready to use our online dealer locator to find an authorized Clopay installer in your area.

# Reserve® COLLECTION

*Semi-Custom Reserve® Collection Design 6  
with Arch3 Windows. Standard Spade Lift  
Handles and Step Plates.*

## Preserving *the* Past

**Wood. The trendsetter of garage door designs. Adds instant warmth and architectural distinction.**

Armed with a homeowner's sketch or architect's drawing, we can create just about any door you imagine—with windows or without—for unlimited potential in woods like mahogany and teak.

In both the Semi-Custom and the Custom doors, the window glass is individually paned and glazed for that added measure of craftsmanship. Our antique iron decorative hardware is available on Custom and Semi-Custom doors.

*Reserve® Collection Limited Edition Series Design 8 with Redwood Base, Redwood Overlays.  
Standard Spade Handles and Step Plates, Optional Spade Strap Hinges.*

## Reserve® Collection Limited Edition Series

Distinguish your home with Clopay's Reserve Collection Limited Edition Series, a line of eight wood door styles based on the most inspired (and requested) Custom Reserve designs.

### MATERIAL OPTIONS

BASE FACE MATERIALS			
LUAN	SMOOTH MDO	T&G MERANTI	T&G REDWOOD
T&G CEDAR	T&G FIR	GROOVED MDO	
OVERLAYS			
MERANTI	REDWOOD	CEDAR	FIR

MDO base cannot be stained. On tongue-and-groove (T&G) face doors, the wood species of the tongue-and-groove must match the wood species of the overlay.

### FINISHED DOOR DESIGNS

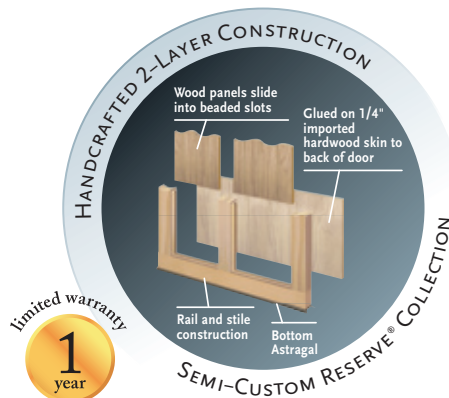

All doors shown with tongue-and-groove 5-layer material.

## Reserve® Collection Custom Series

Armed with a sketch of your idea or an architect's plans, we can create what you envision. So the only limit is your imagination.

### DECORATIVE HARDWARE

## Semi-Custom Reserve® Collection

With six door and window styles that you can mix and match for unlimited possibilities, as well as your choice of wood (redwood, hemlock, cedar) and hardware designs, it's easy to create a custom look at semi-custom prices.

### MATERIAL OPTIONS

STILES/ RAILS	STAIN GRADE			PAINT GRADE	
	REDWOOD	CEDAR	HEMLOCK	HEMLOCK	HEMLOCK
PANELS	REDWOOD	CEDAR	HEMLOCK	SMOOTH MDO	GROOVED MDO

Factory priming is available on hemlock doors.

### FINISHED DOOR DESIGNS

**NOTE:** Stain Grade doors are made with edge glued redwood, cedar, or hemlock wood panels. Differences in grain and color variations are indicative of natural wood. These are not considered product defects. Paint Grade doors are made with exterior grade MDO plywood panels. Paint Grade doors cannot be stained.

*Coachman® Collection Series 2, Design 22 with Arch3 Window Design. Standard Spade Handles and Step Plate. The overlays have been painted by the consumer to match the home's exterior.*

# *The Style? A Classic.*

# *The Lifestyle? All You.*

***The perfect blend of beauty and practicality that is masterful in the detail and innovative in the design.***

The Coachman® Collection from Clopay. The look and feel of wood combined with the durability and ease of steel give your home classic elegance, created for today's active lifestyle.

With three distinctive series crafted to complement your home's architectural style, the Coachman® Collection offers

*Coachman® Collection Series 1, Design 12 with optional beveled-look Arch3 Windows.*

the sophisticated expression of a carriage house door with the science of durable steel and composite construction. The result is a classic look that's virtually maintenance-free. It's the perfect blend of beauty and practicality—masterful in the details and innovative in design.

- Four layers (steel + insulation + steel + composite overlay).
- Three design series, eleven models.
- Three base door colors: white, almond and sandtone.
- White custom composite overlay with coped edge.
- Can be painted using a high-quality exterior latex paint. Doors and overlays can be painted dark colors with a Light Reflective Value (LRV) of 8 or higher. Contact paint manufacturer for LRV reading.
- Hot-dipped galvanized steel is coated on both sides with a baked-on primer and top coat for a virtually maintenance-free surface.
- Available with 1-3/8" or 2" polystyrene insulation with thermal break for superior insulation value: 1-3/8" – 6.5 R-value, 2" – 9.0 R-value.
- Galvanized torsion springs are attractive and longer-lasting.
- Nylon rollers are durable and quiet.
- Rust-proof, aluminum bottom weatherseal retainer and vinyl astragal help seal out the elements.
- See your Clopay Dealer for WINDCODE® door availability.

Spade Step Plates, Optional Strap Hinges.

# First Impressions are Lasting Impressions

***Beautiful and virtually maintenance-free carriage house style designs at a more affordable price.***

Create a look that complements the overall look of your home by selecting the panel size, window or solid top section design and decorative hardware to give it that one-of-a-kind look.

Available with or without insulation, it is virtually maintenance-free, so the first fabulous impression becomes a lasting impression.

Gallery® Collection Long Panels with Wrought Iron Long Windows.

- Three-layer 1-3/8" or 2" expanded polystyrene insulation is pressure bonded to the outside and inside steel skins, making these doors durable, quiet-operating and energy-efficient. 1-3/8" doors have a 6.5 R-value; 2" doors have a 9 R-value. Both have a thermal break for optimum insulation value.
- One or two-layer doors are equally beautiful and are more economical if insulation needs are low.
- Short and Long carriage house panel styles with deep vertical grooves complement any home style.
- Steel coated with hot-dipped galvanizing and topped with a baked-on primer and top coat for a virtually maintenance-free surface.
- Galvanized torsion springs are attractive and longer-lasting.
- Nylon rollers are durable and quiet.
- Rust-proof, aluminum bottom weatherseal retainer and vinyl astragal help seal out the elements.
- See your Clopay Distributor for WINDCODE® door availability.

## Premium Series

### 3-LAYER CONSTRUCTION

Environmentally safe polystyrene insulation, 1-3/8" to 2" thick, depending on the model, is sandwiched between two layers of steel for excellent energy efficiency, beauty, durability and quieter operation.

- Weather-tight tongue-and-groove joint (thermal break on 2" Premium doors) helps seal out wind, rain and snow.
- Exterior woodgrain textured finish combines the beauty of wood with the durability of steel. Steel gauge ranges from 24–27, depending on model.
- Prepainted white end stiles and interior steel backing provide a clean, finished appearance.
- R-values range from 6.5 to 9.0, depending on the model.
- Available in Short Elegant, Long Elegant, and Flush panel designs.
- Warranty dependent on model. See your Clopay Distributor for details.

### COLORS

Not all colors are available with all models.  
Due to printing process, color may vary from actual product.

## Value Plus Series

### 2-LAYER CONSTRUCTION

Heavy-duty steel skin combined with a layer of environmentally-safe polystyrene insulation provides comfort, energy-efficiency and quiet operation; total door thickness is 2".

- Quality 24 or 25 gauge steel frame construction for durability and longevity.
- Exterior woodgrain texture combines the beauty of wood with the durability of steel.
- Weather-tight section joint helps seal out the elements.
- Vinyl backed insulation for a cleaner inside appearance.
- R-values range from 4.4 to 6.3, depending on the model.
- Available in Short Traditional, Long Elegant/Traditional\*, and Flush panel designs.
- Warranty dependent on model. See your Clopay Distributor for details.

\* Design differs depending upon region of the country where purchased. See your Clopay Distributor for details.

### COLORS

Value Series Long Traditional Panel Design.

## Value Series

### 1-LAYER CONSTRUCTION

Steel

Single-layer 24 or 25 gauge steel construction provides years of trouble-free operation.

- Rust-proof and durable Tog-L-Loc® fastening system secures steel skin to frame.

### WINDOW DESIGNS

Classic or decorative, Clopay has a window option to complement your home. See the following pages for complete window availability.

### CONSTRUCTION

Corrosion-resistant, long-lasting galvanized torsion springs are standard on most doors.

For an extra measure of defense against nature and unsurpassed rust-resistance, we apply an extensive paint protection system. The hot-dipped galvanized steel is coated on both sides with a baked-on primer and then finished with a baked-on polyester top coat. The result is a durable, beautiful, maintenance-free finish coat that can also be painted to match your home's exterior.

Aluminum bottom weatherseal retainer is rust-proof. Bottom weatherseal helps seal irregular floors to keep out wind, rain and snow.

Extended life cycle nylon rollers offer smooth and quiet operation.

WindCODE® doors are supplied with special hardware which differs from standard specifications as listed. Contact your local Clopay Distributor for details.
